

JUNE 1993

Hi Everyone,

Gradually the album progresses. Rich is working with Aron Friedson and Damon Rochefort who you might know from their work with their own band, "Spirits", or through their mixes for Michelle Gayle and Jerry Thomas. Damon, in fact, first found Fame with "Damed" (Damon spell backwards!!), with "I Wanna Give You Devotion".

In July we are scheduled to begin work with C.J. MacKintosh, a well known club DJ, resident at the Ministry of Sound in London. Some of you may have seen him on the recent Ministry Tour. He has done loads of re-mixes for Janet Jackson and Jon & Lewis, and this will be his second production after another WCA act called "Love Happy".

Meanwhile, in between work in the studio I've been learning to roller-blade with my mates. I love roller-disco, and my brother and niece come with me last weekend!! I've also landscaped our studio garden from scratch. Together with Ray, (our local builder) I've designed and planted a place to escape the intense studio atmosphere! Now all we have to wait for is some sunshine!! Summer has been very late here, so after landscaping my own garden and my Mum's and the studio, I've been decorating my house again. It's amazing what gets done when you put your mind to it!

Some gigs I've been to recently include sounds of Missy and Aaliyah. Aaliyah was great and sounded even better live - she is also incredibly cute! Her album "Age Ain't Nothing But A Number" is a firm favourite of mine, as are Mary J Blige, Thara, Brownstone and Boyz II Men. These have all heavily influenced my writing these past two years.

We're still looking for a release in September and I've been in training to be fitter than ever. So, as I said at the top of this letter, gradually it's all coming together, piece by piece, for my best project yet!

I hope you all have a great summer - we'll be working hard!

See you soon.

BIG LOVE,

Wildey
