KIMS LETTER

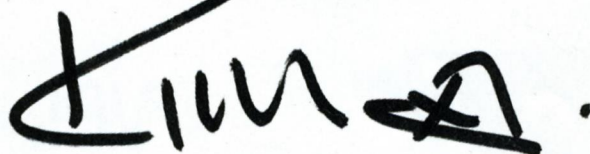

Hi, I have just got back from Denmark where I have been promoting 'You Keep Me Hangin' On', and the tour in November. The single was released while I was there and will be released in the U.K. on the 29th September and the rest of Europe on the 19th Sept. The L.P. will be released on the 20th October in Britain and the 3rd October for the rest of the world.

I finished the L.P. on the 24th August and managed a ten day break in the South of France with some of my friends. We all drove down in a caravanette, which we stayed in on a quiet camping site. It was so sunny and relaxing, and put me in the perfect frame of mind to come back and work really hard for the new single. We're getting a great reaction from everyone on the new single, and the L.P. 'Another Step', I can't wait to tour with it in November.

Meanwhile, on the 7th Sept. I was in London and went to Abbey Road Studios to record 'A Live In World' with a whole bunch of singers and music personalities against drug abuse and heroin. All the money will go towards a drug rehabilitation centre. Holly Johnson, Nick Heyward, Fish, Cliff Richard, Hazel Dean, Thompson Twins, John Parr, Suggs (Madness), and many others were there showing solidarity against drug abuse, especially amongst the young, so keep a look out for it.

Last week I made the video for 'You Keep Me Hangin' On', it was directed by Greg Masuak, no doubt you will be seeing it shortly. I shall be off to the editing suite tonight, but I hear it is looking wonderful. Anyway, with the L.P. finished at last, the video too, I shall be starting rehearsals soon for the tour. I am really excited about it, there's going to be a lot of great new things happening and loads of great ideas are flying about for a really exciting tour. So, hope to see you all on the road. Until then.

Kisses.

QUESTIONS & ANSWERS

Raymond De Roy (Holland)

Q. Is it true that 'Schoolgirl' was written for Roxanne after what happened at Chernobyl?

A. Yes, 'Schoolgirl' was inspired by Roxanne, and yes it was written directly after the Chernobyl disaster. Chernobyl is such a shameful thing, something everyone in the world must take responsibility for, and everyone must do their part to never let it happen again.

Michelle Midgley (England)

Q. What are your views on drugs?

A. Just recently I got involved in the SMACK project, which was directed towards Heroin addiction, but represents a stand against drug abuse in general, by people in the music world. We recorded a song "Live Aid" style called 'Live In World', where people like Holly Johnson from Frankie Goes To Hollywood, Nik Kershaw, Fish from Marillion, Bucks Fizz, Cliff Richard and many more, turned up at Abbey Road Studios and spent all day recording a record which will hopefully bring attention to potential drug users, the dangers involved, and at the same time raise money for a drug rehabilitation centre. I am firmly against drug abuse, and I'm ready to support any anti-drugs campaign.

Leanne Stones (England)

Q. So far, what is your favourite album of '86?

A. Control - Janet Jackson.

Q. Who would you most like to do a duet with?

A. There will be a duet on my new album, 'Another Step', called 'Another Step (Closer To You)', which I did with Junior, and I expect will be a single at some point. I loved working with him, he's very talented and very funny, and I think I would find it very hard to find someone to better him.

RECORD NEWS

Kim's new album, 'Another Step' is here at last and due for release on the 20th October in the U.K. and the 3rd October for the rest of the world.

ANOTHER STEP

The title is taken from a track on the album called 'Another Step (Closer To You)', a duet featuring a guest appearance by Junior.

Kim has a writing involvement in eight of the tracks on the album, as well as a co-production credit. Recording took place here at Select Sound Studios, where Kim worked with Ricki and 'M', as well as Larabee Sound in Los Angeles where she worked with producer Richard James Burgess.

Also included on the album is a track recorded at Westlake Audio (also in Los Angeles) called 'Say You Really Want Me', which features on the soundtrack for MGM's big film for '86, 'Running Scared'.

The album has been a long time in coming and taken a lot of hard work, but it's been really worth it.

Hi and welcome to another...

FAN CLUB YEAR

We are now in our sixth year and we're very proud of it. It's also great to see so many of you rejoining and introducing new members to the club.

Since the last magazine there has been a lot of excitement here. The new album is ready at last, and everyone is really happy with the result. It's taken quite some time but there's been a lot of care taken over it to get things just right.

The L.P. cover, incidentally, has a really interesting design (courtesy of Simon Marsh), which has a picture of Kim in front of a map of the world. Simon has used some lovely bright colours and the effect is superb. This design also follows through on the cover for the single, we all think he's done a wonderful job with this, and no doubt you will too.

Kim has just returned from a holiday in the South of France with three of her friends, which she thoroughly enjoyed, and is now ready to get down to some more hard work, promoting the new records and getting ready for the Tour.

As you can see, we have some Tour dates and venues for you in this magazine. However, as stated on the Tour News pages, it is advisable to check these dates with the box offices because although the information we have provided was correct at the time the magazine went to print, it is possible that a few changes may have occurred.

The arrival of Ricki and Mandy's baby boy was quite an event, believe me! We all went down to the hospital that night and waited around until the early hours of the morning, (3.40am to be precise), and when Ricki came out to tell us the great news, the champagne corks started to fly. What a night! So It's congratulations to Mum and Dad, Granny Joyce, Grandad Marty and Auntie Kim - not forgetting Auntie Roxanne and Uncle Marty Jnr of course! The new baby is called Marty, so now we have an M1, M2 and M3 - wait for the M25!!

Well, I'll sign off now so you can give the new records a good listening to. Don't forget to let us know what you think.

Bye for now.
